

DSHS Flex Program

DataSmart *HEALTH* Solutions (DSHS) Flex Program provides top quality, interchangeable self-funding services. DSHS Flex Program allows brokers, groups, and administrators to customize and brand a self-funded plan for their clients and/or plan participants. The Flex Program includes integrated advanced care management services, pharmacy benefit management services from MagellanRx, site of care services from Option Care, and advanced analytics from DataSmart Solutions. Clients have their choice of medical claims administrator, stop-loss carrier, and other platform partners.
